Clare Controls is a leading provider of home systems and software for residences and businesses. They provide world-class experience centers where dealers and consumers can see and experiment with the systems they provide.

Denon

Denon celebrated its 100-year anniversary in 2010, carrying on its tradition of excellence with a renewed commitment to the highest quality home theater, audio, and software products.

KEF

For several decades, audiophiles around the world have revered KEF for its innovative, high-performance loudspeakers.

**Screen
Research**

Screen Research is a leading provider of state-of-the-art video projection screens designed for custom home theater, commercial, and professional cinema applications.

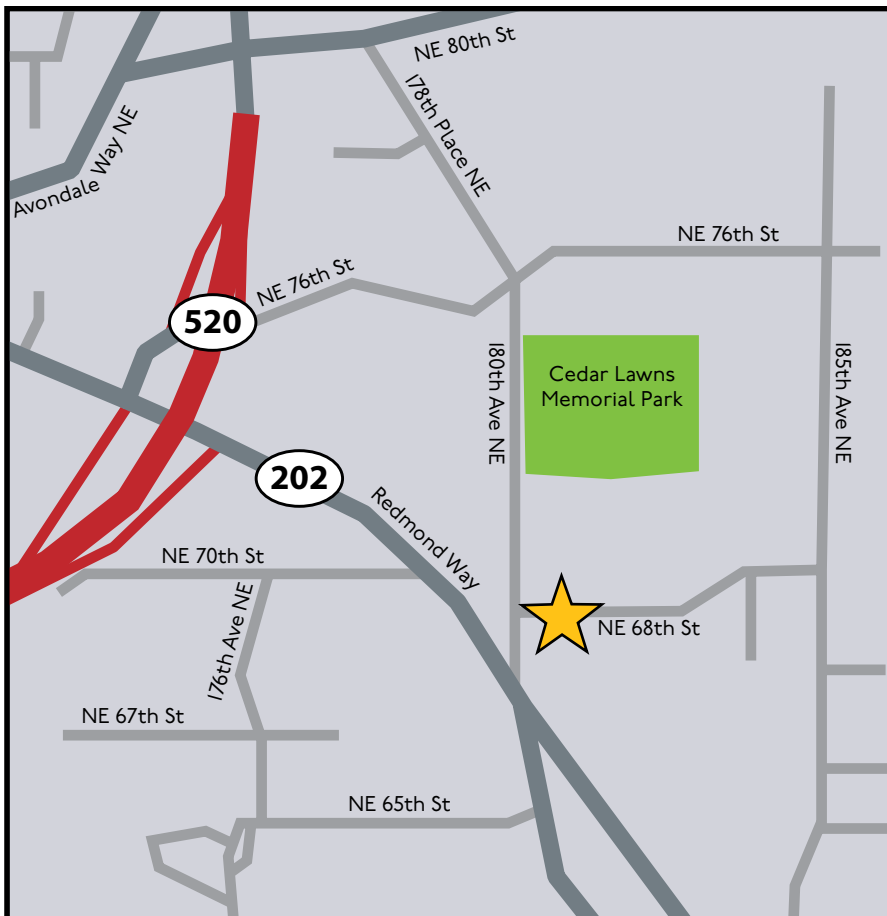

Straight Wire

The philosophy of delivering all the music and a clear picture has been the foundation of Straight Wire for over 15 years. The straight approach attaches no filters and provides the truest sound and vision that creators intended for your relaxation & escape.

ABOUT US

Novidor & Firestone is an independent manufacturers' representative firm founded nearly 30 years ago. We specialize in consumer electronics, and focus on premium vendors catering to the specialty audio-video retail, distributor, and custom installation market. Our vendors are a diverse group, which offers the best of their class, and we seek to represent only those vendors who enhance our dealers' assortments - vendors who provide differentiation with distinction.

We are a full-service team that maintains close relationships with our vendors and our dealers to ensure that the delicate balance between both their needs is kept. In order to deliver the exceptional sales results we enjoy, we regularly assist with budgeting and forecasting while integrating our vendors' national plans into our local markets. We constantly provide professional sales training and are always abreast of industry trends.
